

TRINITY INTERNATIONAL SCHOOLS

700 East St. Louis, Las Vegas, Nevada 89104 > (702) 732-3957 Fax (702) 784-0192

Dear Class of 2011 and 2012 Students and Parents,

Trinity High School is pleased to invite you to apply for the Trinity Early College (TEC) Program. As a member of the classes of 2011 and 2012, you will have the opportunity to graduate high school having earned a Diploma and possibly an Associate of Arts Degree, determined by credits completed. This opportunity can put students on track to earn their Bachelors Degree two years after high school graduation.

The Trinity Early College Program is a progressive, challenging approach to education. It is designed to meet the changing characteristics of modern culture and contemporary students. TEC offers students the ability to participate in online and live classes offered by institutions belonging to Nevada System of Higher Education (NSHE) while being present at all times within the Trinity International Schools environment. Our program is unique throughout the country. Students have the opportunity to earn as many as sixty credits from NSHE institutions. These classes are fully transferable to most four-year universities. This is a chance that few other high school students will have, and Trinity is proud to be among the first to offer such an incredible program to its students.

An additional virtue of the Trinity Early College Program is its ability to offer such potential without compromising the high school social and athletic experience that is so valuable. All students are afforded the opportunity to participate in traditional extra-curricular high school activities such as athletics, fine arts and student leadership.

The application and enrollment window for the TEC program is currently open, but all paperwork and assessments must be completed by March 31, 2010. To begin this process visit the website at <http://trinitylv.org/college.htm>, then select and download the **Admission Packet**. After fully completing the packet, return it to the school office. Meeting this deadline is critical.

Feel free to contact me to request more information.

Fernando O. Gomez
Early College Director
